

# New York Land Bank Association

## **Statement from New York Land Bank Association President Adam Zaranko Regarding the FY 2023 Adopted State Budget**

“The New York Land Bank Association thanks the Governor and State Legislature for including \$50 million in funding for Land Banks in the state budget. New York has developed one of the most active and effective networks of land banks in the United States, and this investment enables us to continue to build upon the tremendous success that our land bank program has achieved over the past decade. This funding ensures our communities remain equipped with the tools they need to transform vacant problem properties into assets that help revitalize urban and rural communities across New York. Thank you to all of our partners throughout the state for your continued support.”
